WELCOME MESSAGE

by the President of the Congress | Dr Stylianos Kapetanakis

Director of the 1st Orthopaedic Department,
European Interbalkan Medical Center of Thessaloniki

Dear Colleagues,
We are delighted to announce the organization of the 1st International Congress for Minimal Invasive Orthopaedic Surgery covering the entire spectrum of Orthopedic Pathology, which will be held from May 13th to 15th 2022, at Amphitheatre Interbalkan Medical Center, in Thessaloniki, organized by the 1st Orthopaedic Department of Interbalkan Medical Center of Thessaloniki

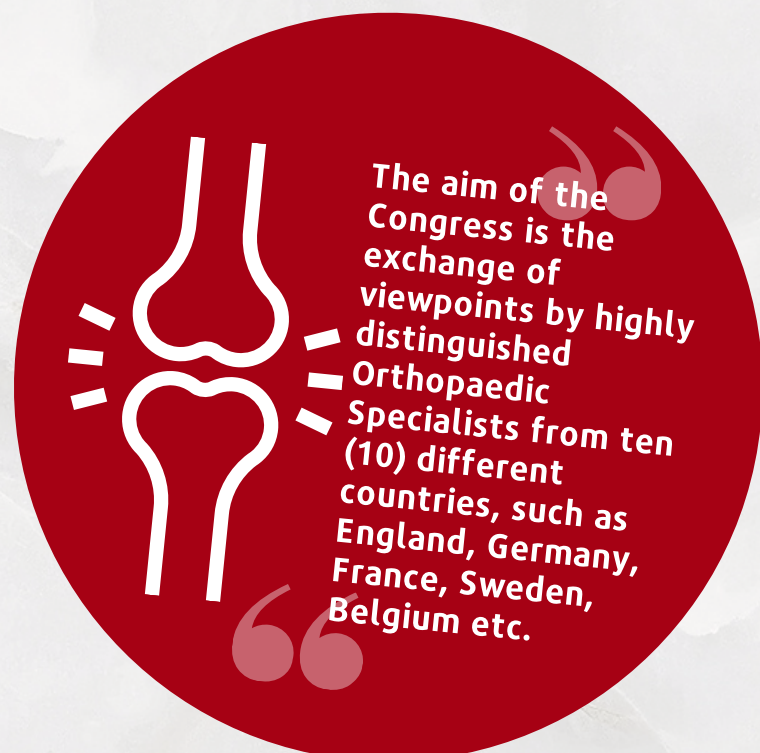

The aim of the Congress is the exchange of viewpoints by highly distinguished Orthopaedic Specialists from ten (10) different countries, such as England, Germany, France, Sweden, Belgium etc.

Characteristic feature of the Congress is the live participation of 25 invited colleagues from abroad who, along with a relatively small number of eminent Greek colleagues, will set up 11 round tables, exchange views and announce their conclusions regarding minimally invasive techniques in Orthopaedics.

Along with view exchange among Experts in Orthopedics, our wish is to offer a short escape of relaxation to the Organizers, to the Participants of the Scientific Program, as well as to those participants who will have the opportunity to attend the Congress with their physical presence in Thessaloniki.

The President's ultimate goal is to promote the Orthopaedic Science and to establish the Congress as an institution for the future.

In compliance with the health protocols currently in force, the number of participants with physical presence will be limited. For this reason, we kindly ask for your timely registration and inform you that a strict list will be kept according to the order of priority of expressions of interest.
